## Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

### NAVIGATION

<div><div></div></div> ▲ Heading elements are not in a sequentially-descending order	▼
--	---

These are opportunities to improve keyboard navigation in your application.

### AUDIO AND VIDEO

<div><div></div></div> <video> elements contain a <track> element with [kind="captions"]	▼
--	---

These are opportunities to provide alternative content for audio and video. This may improve the experience for users with hearing or vision impairments.
